Porutham readings

Dina

Counting from the bride birth star to the groom birth star gives 27, which the Dina list does not accept.

Gana

One chart is Rakshasa and the other is not, so the natures pull against each other.

Mahendra

Counting from the bride birth star to the groom birth star gives 27, which is not one of the Mahendra positions.

Stree Deergha

Counting from the bride birth star to the groom birth star gives 27, past the minimum of 13, which is read as long life and security for the bride.

Yoni

The two birth star animals are not a hostile pair.

Rasi

Counting from the bride Moon sign to the groom Moon sign gives 1, clear of the sixth, eighth and twelfth the Rasi rule refuses.

Rasyadhipati

The two Moon sign lords are the same planet or mutual natural friends, so the minds meet.

Vasya

The groom Moon sign is not one the bride Moon sign draws.

Rajju

The two birth stars fall on different Rajju limbs, so no Rajju obstruction applies.

Vedha

Neither birth star obstructs the other, so no Vedha applies.
